

# HEADS UP

PLAY IT SAFE  
AROUND  
LIGHT RAIL

# Trams now testing. Day and night.

Trams are testing between Randwick, Central and the CBD.  
If you are travelling in the area remember:

## Cyclists

Cross tracks on your bike at an angle, if you can't, it's always safer to dismount.

Don't ride along the tracks.

Tracks can be slippery when wet.

## Pedestrians

Always use designated crossings.

Step over tracks as they can be slippery when wet.

Stay alert and avoid distractions like mobile phones.

Look both ways before you cross the street.

## Drivers

Be aware that traffic conditions have changed.

Follow traffic signals and don't queue across intersections.

Check twice for trams.
