

Night works at North Ryde

The NSW Government is delivering Sydney Metro, Australia's biggest public transport project.

On 26 May 2019, services on the Metro North West Line will start operating between Tallawong and Chatswood.

Station Link services, which were introduced to keep customers moving between Epping and Chatswood ahead of Sydney Metro services starting, will stop operating on 26 May.

When Station Link services conclude, expect to see about 80 of our former Station Link buses around the network to support Metro operations as we bed in the new service.

For further details about Station Link, visit www.mysydney.nsw.gov.au/stationlink

What do I need to know?

Minor night works will be carried out from Thursday 23 May between 7pm and 5am, weather permitting, to remove Station Link bus stop infrastructure and update wayfinding signage put in place for Station Link in September 2018. **Work is expected to be completed by Sunday 26 May.**

Noisy activities will be carried out, wherever possible, before midnight. If you are moving around the worksite please follow signs and traffic controller's directions.

The areas where work will be carried out is provided on the map on the reverse of this letter.

Contact information

If you have any questions, please contact our delivery partner, **DM Roads**, on **1800 332 660** or nsw_projects@dmroads.com.au.
